OFFICE OF PETITIONS

Sir:

The Board of Regents of the University of Texas System is the assignee of all right, title and interest in and to the above-identified application. The assignment is attached hereto. This application is a continuation of Application Ser. No. 08/934,260, filed September 19, 1997, now U.S. Patent No. 5,906,636, which claims priority from provisional patent Application Ser. No. 60/026,418, filed September 20, 1996.

On behalf of the assignee, the terminal portion of any patent which is granted on the above-identified application which would extend beyond the expiration date of the full statutory term of U.S. Patent No. 5,906,636, which has also been assigned to the Board of Regents of the University of Texas System, is hereby disclaimed.

It is hereby agreed that any patent granted on the above-identified application shall be enforceable only for and during such period that the legal title to any patent granted on the above-identified application shall be the same as the legal title to U.S. Patent No. 5,906,636. This agreement shall run with any patent granted on the above-identified application and shall be binding upon the grantor, its successors or assigns.

No disclaimer is hereby made on any terminal part of any patent granted on the above-identified application prior to the expiration date of the full statutory term of U.S. Patent No. 5,906,636, in the event that it later expires for failure to pay a maintenance
